

Gaurav S. Agarwal

Chief Executive Officer

Vyaire Medical

Gaurav S. Agarwal is Chief Executive Officer of Vyaire Medical. With extensive global leadership experience in medical devices and a proven track record in corporate transformation, Agarwal is focused on driving innovation, improving patient outcomes, and creating exceptional value for customers.

Prior to joining Vyaire Medical, as President and Chief Operating Officer of KCI, an Acelity Company, Agarwal led the company in innovating groundbreaking healing solutions for current and new customer segments, transforming the company into a leader in advanced wound care.

During his tenure at KCI from December 2014 to January 2020, Agarwal held positions of increasing responsibility. As Group President, Businesses and Innovation, Agarwal was charged with overseeing Acelity's innovation pipeline, product portfolio strategy and execution, in addition to North American commercial operations. He was also responsible for creating and managing development platforms across the business to bring highly differentiated products to market.

Agarwal has previously served as President, Orthopaedic Reconstruction at Smith & Nephew, where he was responsible for implementing cutting-edge global strategy that expedited product development and redefined the company's portfolio for joint reconstruction.

Agarwal has also held Vice President and General Manager roles in Respiratory and Sleep Care at GE Healthcare, where he was responsible for driving growth and commercial profitability for the company's medical device business across Asia, including Japan and China, and establishing distribution channels on a global scale. As Chief Technology, Quality, Regulatory and Strategy Officer, he was responsible for all technology and innovation initiatives for the \$5 billion device business.

Agarwal received his Bachelor of Science degree in Chemical Engineering from Rensselaer Polytechnic University.
